Terms and Conditions for Tender

1 General principles

1.1 Client:

Evangelisches Werk für Diakonie und Entwicklung e. V.
for Brot für die Welt
Caroline-Michaelis-Str. 1
10115 Berlin
Germany

The following email address is to be used for tenderer questions, submission of tenders and further communication regarding this contract:

SCS_NGA-GHA@ewde.de

The tender documents, along with the questions and answers from tenderers, can be downloaded at: <https://fuv.brot-fuer-die-welt.de/css-nga-gha/>

1.2 Award method and procedure

The procurement procedure takes place in accordance with the negotiated award procedure without a competitive tender pursuant to §12 of the German [Unterschwelvenvergabeordnung](#) (UVgO/ regulation on sub-threshold procurement). The details of the selection process are set out below.

The procedure is as follows:

1st stage: Invitation to tender and contract notice

Several tenderers, in principle at least three, are invited to submit a written tender. In addition, the Client publishes the invitation to tender on its website. All entities with an interest in the contract may submit a bid.

2nd stage: Submission of the initial tenders

On the basis of the contract notice and the procurement documents, the tenderers submit their initial tenders. The “Letter of Tender” form must be used for this purpose. The initial tender must be submitted to the Client by the binding tender deadline with the information, documents and evidence referred to in Section 2.2.

The Client first reviews whether the entities have submitted an admissible tender, whether they are eligible to deliver the service and whether there are any grounds for exclusion. From these tenders, three tenderers per lot are selected on the basis of the award criteria set out in Section 3 and invited to negotiate. The tenderers are not entitled to negotiation talks.

3rd stage: Negotiations

During the negotiations, the selected tenderers are given the opportunity to present their tender and to outline their capabilities and approach to the contract. The Client asks questions about the concept submitted with the tender and other relevant issues. The negotiations must be attended on behalf of the tenderer by a person authorised to represent the tenderer and, if possible, by all

persons who will provide the consultancy and support services in practice (including subcontractors).

The negotiation will take place using Teams.

Should the Client see a need for further negotiation or clarification after the negotiations, the Client invites the tenderers to further negotiations.

The Client reserves the right to award the contract to a tender in accordance with the award criteria under Section 3, even without having negotiated first.

4th stage: Final tenders

Following conclusion of the negotiations, the Client sets a common deadline for the submission of the final tenders, which are no longer being negotiated.

1.3 Service to be performed

This pertains to Sections I, II and III of the Terms of Reference.

1.4 Type and scope of the service

This pertains to Sections IV, V and VI of the Terms of Reference.

1.5 Place of service delivery

The place of service delivery is the country/region: Nigeria and Ghana

Consultancy and support is usually provided at the location/headquarters of the partner organisations as well as digitally or with several partner organisations together in the region as well as digitally. This considered, it is advantageous if the Client is based in the country/region or has a local office. Intercontinental travel expenses to partner organisations are not reimbursed.

Please refer to Section IV of the Terms of Reference for information on the locations or areas where the currently funded partner organisations are based.

1.6 Division into lots

The entire scope of services shall constitute one single lot.

1.7 Variant tenders

Variant tenders are excluded.

1.8 Tender costs

No costs will be reimbursed for the preparation of the tender and the selection and negotiation meeting.

1.9 Framework agreement and annual contracts

A four-year framework agreement is concluded. Based on the framework agreement, annual contracts, usually with a term of up to 12 months, are placed with the framework agreement partner. A prerequisite for the award of the annual contract is the preparation of a planning overview (Annex 1 to the framework agreement) showing the anticipated demands and scope for the annual

contract. The planning overview is coordinated with the Client. On that basis, annual contracts are assigned in accordance with Section 3 of the framework agreement.

1.10 Documents for the selection procedure

The documents are structured as follows:

- Terms of Reference
- Terms and Conditions for Tender
- Letter of Tender form with Annexes / forms 1–4
- Model Framework Agreement with Annexes 1–7

1.11 Terms of contract

The Framework Agreement with the annexes contains the terms of contract, which also include the terms and conditions for payment.

The number of days/trips/workshops and the budget are agreed in the contract as “up to” amounts. Under the contract, the Contractor is not entitled to fully exhaust the days/travels/workshops/budgets if this is not necessary for the objective of the service delivery.

1.12 Tenderer questions

The tenderers must ensure that the documents are complete immediately after they have been retrieved. If the documents are incomplete or, in the opinion of the tenderer, contain ambiguities, the tenderer must inform the Client immediately before submitting the tender.

Notes and questions concerning the award procedure and the procurement documents must be sent to the following email address no later than three working days before the tender deadline:

SCS_NGA-GHA@ewde.de

The questions and answers, insofar as they are of general interest, will be made available to all tenderers in anonymised form on the award platform <https://fuv.brot-fuer-die-welt.de/css-nga-gha/>.

Tenderers are not allowed to contact persons involved in the procedure outside the Fund and Procurement Management Unit (FuV) of Brot für die Welt (Bread for the World) in the ongoing procurement procedure on issues relating to the procedure.

1.13 Participation in the procurement procedure

A prerequisite for participation in the procurement procedure is that tenderers are entitled to provide the service described in accordance with the legal provisions of the state in which they are established. Individual consultants may also apply, provided they meet all the described requirements for application and performance of the contract, such as economic capacity.

1.14 Bidding consortia

Bidding consortia are permitted insofar as they are admissible under competition law.

Bidding consortia must submit a list of the members of the bidding consortium with the name of the authorised representative of the bidding consortium and a declaration signed with legally binding effect by all members of the bidding consortium stating that the authorised representative of

the bidding consortium legally represents the listed members towards the Contractor and that all members of the bidding consortium are jointly and severally liable.

Bidding consortia are only allowed to change their membership before the end of the tender submission period by withdrawing the tender and submitting a new tender of the newly formed bidding consortium.

All members of a bidding consortium must issue the declarations of the absence of grounds for exclusion in Annex 1.8 of the Letter of Tender. The evidence of eligibility according to Annex 1.1 to 1.4 to the Letter of Tender is assessed in total when assessing eligibility.

1.15 Subcontractors

If necessary, the tenderer may also use third parties for the performance of the contract and commission them with the performance of the services or parts of the services. If subcontractors are intended to be engaged by the tenderer(s), this must be stated in the tender. The eligibility of subcontractors must be demonstrated in accordance with the tender documents. If a subcontractor not already named before the award of contract is to be engaged at a later date or if a subcontractor is to be replaced during the term of the contract, the consent of the Client must be requested at least four weeks before the planned engagement. The Contractor is also accountable to the Client for the delivery of the service as agreed when using subcontractors.

1.16 Agreements restricting competition

Agreements restricting competition result in exclusion of the bid.

If these only become known after the award of the contract, they entitle the Contractor to terminate the contract.

1.17 Sanctions list screening

According to international legal requirements, based on UN resolution no. 1390 (2002), UN resolution no. 1373 (2001), UN resolution no. 2253 (2015), EC regulation no. 881/2002, EC regulation no. 2580/2001, EU regulation no. 2016/1686 and EU regulation 2017/1390, every organization is required to ensure that financial resources are not paid to individuals and organizations that are on the sanctions list of the United Nations and/or European Union and, in case of transactions in US-Dollar, of the USA. The implementation of appropriate safeguards is mandatory.

Please be informed that therefore the Client screens its contractual partners against the sanctions list of the United Nations and the European Union (and if necessary the US), to avoid any payments or transfers of funds to individuals or organizations that are on the above-mentioned lists.

If personal data is passed on by the tenderer in the context of the procurement procedure (e.g. own employees, named contact persons at references), the obligation to provide information pursuant to Art. 13 GDPR or § 17 of the Kirchengesetz über den Datenschutz der Evangelischen Kirche in Deutschland [DSG-EKD /Data Protection Act of the Protestant Church in Germany] must be
